# Wichita Metro Area Leading Economic Indicators Index Results for November 2012

## ***Introduction***

The WSU Leading Economic Indicators Index is designed to give an indication of where the Wichita economy is headed. Leading indicators tend to change before the economy itself changes. The WSU Leading Economic Indicators Index is composed of nine monthly indicators including:

- Kansas monthly initial claims for unemployment insurance
- Value of building permits, new residential construction
- Value of building permits, new non-residential construction
- National Index of Consumer Confidence
- Average weekly hours worked in manufacturing
- New orders for aircraft
- Stock prices of aerospace companies
- Wheat prices (futures) and
- The Conference Board's national index of leading economic indicators

The WSU Current Conditions Index is designed to reflect the present state of the economy. The WSU Leading Economic Indicators Index, on the other hand, is designed to forecast future movements in the economy. On the national level, The Conference Board releases the most widely followed indicators. The WSU Current Conditions Index is similar to what The Conference Board refers to as their "coincident" indicators index. Likewise the WSU Leading Economic Indicators Index is similar to The Conference Board's Leading Economic Indicators Index.

The WSU Leading Economic Indicators Index may be examined over time to determine the likely future course of the Wichita economy. An increase in the Index over several months signals an expansion in the Wichita economy approximately six months into the future. Similarly, a decline in the Index over several months signals that the area economy is likely to weaken in approximately six months. A movement in the Index in only one month does not produce a clear signal. This interpretation of movements in the Index is similar to that which The Conference Board gives to its national Index of Leading Economic Indicators, in which a change in the Index must take place for at least three months in a row for a change in the economy to be signaled.

## ***Summary of Results***

### **Month-to-Month Comparisons: October 2012 to November 2012**

- The Leading Economic Indicators Index basically remained the same, increasing only 0.04 percent
- Kansas initial unemployment claims increased 6.5 percent
- Value of new residential construction permits decreased 9.3 percent
- Value of new non-residential construction permits decreased 79.1 percent
- National Index of Consumer Confidence increased 0.6 Index points
- Average hours worked per week in manufacturing increased 0.7 percent
- Value of new orders for aircraft and parts decreased 12.4 percent.
- Aerospace stock index increased 2.6 percent.
- Wheat price increased 1.4 percent
- The Conference Board's Index of Leading Economic Indicators decreased 0.2 Index points

### **Year-Over-Year Monthly Comparisons: November 2011 to November 2012**

- The Leading Economic Indicators Index decreased 1.8 percent
- Kansas initial unemployment claims decreased 2.6 percent
- Value of new residential construction permits increased 108 percent
- Value of new non-residential construction permits decreased 67.2 percent
- National Index of Consumer Confidence increased 18.5 Index points
- Average hours worked per week in manufacturing decreased 0.7 percent
- Value of new orders for aircraft and parts decreased 18.5 percent.
- Aerospace stock index increased 8.7 percent
- Wheat prices increased 25.1 percent
- The Conference Board's Index of Leading Economic Indicators increased 1.7 Index points

### **Year-to-Year Comparisons: November 2011 to November 2012**

**(12 months ending November 2011 compared to the 12 months ending November 2012)**

- The Leading Economic Indicators Index decreased 0.3 percent
- Kansas initial unemployment claims decreased 7.4 percent
- Value of new residential construction permits increased 32.4 percent
- Value of new non-residential construction permits decreased 57.2 percent
- National Index of Consumer Confidence increased 9.1 Index points
- Average hours worked per week in manufacturing increased 0.9 percent
- Value of new orders for aircraft and parts increased 17.8 percent
- Aerospace stock index increased 0.7 percent
- Wheat prices decreased 10.3 percent
- The Conference Board's Index of Leading Economic Indicators increased 1.7 Index points

**Table 1. Leading Economic Indicators Index for November 2012**

Month	Year	Index	Percentage Change
November	2011	101.41	0.2
December	2011	102.27	0.9
January	2012	101.93	-0.3
February	2012	102.52	0.6
March	2012	101.14	-1.3
April	2012	100.18	-1.0
May	2012	99.28	-0.9
June	2012	98.40	-0.9
July	2012	98.87	0.5
August	2012	97.67	-1.2
September	2012	98.24	0.6
October	2012	99.51	1.3
November	2012	99.55	0.0
